**Minute for Mission:** Our gifts for M&S support the intercultural journey of learning and practice. One highly effective branch of this work is the Deepening Understanding for Intercultural Ministry (DUIM) program, which has helped church leaders and community members develop tools and foster attitudes to engage their own context. The program is a life changing experience for both the participants and the facilitators. Facilitators have learned more about dominant culture individuals and their experiences, realizing that we are all not in the same place in our intercultural or faith journey. Participants look forward to using the tools in a variety of ministry contexts, including at home as they engage in relationship building outside the reserve; at the Montreal Mission where they work ecumenically; interfaith encounters with a wide variety of marginalized communities; working on right relations with the Presbytery; working with our home congregation on relationship building with a variety of cultural groups. The DUIM program allows people to move forward in the intercultural work. M&S makes this journey possible.
